Dual-Light™ Flashlight w/ Dual Magnets - Rechargeable

MARKET APPLICATIONS

Industrial, automotive, law enforcement, fire & rescue, security, hardware/tool

DESCRIPTION

The rechargeable Dual-Light™ Flashlight w/ Dual Magnets use a CREE® LED rated at 250 lumens paired with a high-efficiency deep parabolic reflector, creating a flashlight beam with an effective range of 213 meters (over 698 feet). Additionally, built into the handle is a 140 lumen floodlight. Unlike the flashlight beam, the light coming out of the floodlight does not have a reflector so the light spreads out in a wide, even, unfocused pattern of light...perfect for lighting up things that are close. Additionally, both lights can be turned on at the same time for even more versatile lighting options. Now you have a light for distance and one for close up work. The waterproof design, in combination with an impact and chemical resistant engineered polymer housing, make this tough light, one of the best values around. Additionally, the integrated magnets located in the base of the handle and pocket clip, provide for almost limitless hands-free usage. Power comes from a pair of integrated Lithium-ion rechargeable batteries.
